

Most days, you are up before dawn, shouldn't your Seed Consultant work as hard as you do?

Superior genetics... locally grown™

At PRODUCERS COOPERATIVE ASSOCIATION we understand that seed decisions are important and not a place to gamble. That is why we have a full-time seed specialist who will help you place the right hybrid or variety on the right field with the right fertility and crop protection program. Our job is not done when seed is delivered or picked up. We work all season long to partner with our growers to achieve the results that they expect. We recommend planting rates, fertility levels, crop protection programs, and help diagnose field problems. **People, Products, Progress**

We Offer:

- Corn Seed (Dekalb, Croplan and NK Brand)
- Soybean Seed (Asgrow, Croplan and NK Brand)
- Wheat Seed (Agripro)
- Pasture Seed (KY 31 fescue, Forage First Mixes)
- Specialty Seed (Sweet Corn, Garden Seed)
- Turf Grass (Earth Carpet)
- Food Plot Seed (Brier Ridge)

Also available:

- Bulk Seed (Soybeans and Wheat)
- Seed Delivery (with qualifying purchase)
- Seed Treatment (Co-op seed or Customer seed)
- Lawn and Pasture recommendations
- Farm and Field planning
- Nutrient Management
- Crop Diagnostics
